Experience

GAC Infinity Hub Corporation, Davao City, Philippines   May 2025 - June 2025
Full Stack Developer - Intern
- Contributed to the payroll system by developing an exam-type module that facilitates interaction between administrators and users through creation and response functionalities.
- Explored and implemented solutions to meet client requirements by leveraging REST APIs and libraries such as Spatie, enhancing overall system usability for end users.
- Received a perfect evaluation score of 6 (100%) from my immediate supervisor, reflecting strong performance, skills, and efficiency.

Projects

Great Buy Originals Web App   https://github.com/renzcuison/gb-web-app
- Developed a web application that integrates an Inventory Management System with a customer-facing e-commerce website.
- Implemented real-time stock tracking, manpower management, and sales reporting, with product availability automatically reflected on the site.
- Designed the e-commerce interface to improve brand presence and customer engagement through a modern, user-friendly interface.

SK Davao del Sur Web Prototype   figma | https://skdavaodelsur.vercel.app/
- Led the UI/UX design for the page creating a hybrid of modern and professional user interface.
- Designed the layout and user flow to align with modern design principles, enhancing visual appeal and user engagement.

Blog and E-commerce Web Prototypes | https://renzcuison.github.io/sns-web/ | https://renzcuison.github.io/info-web/
